

Teresa and Bug

In early September 2020, my horse slipped and fell on wet arena footing and presented lame. After exhausting all other methods of treatment, and still no results, I received a recommendation to try chiropractic care, enter Dr. Woodford. Dr. Woodford saw my horse for the first time in November of 2020 and did a very thorough evaluation and then adjusted her in the same visit.

The difference, one word, Astounding! Not only has Dr. Woodford solved the lameness issue but my horse is now training at a new level. I have an American Saddlebred and she had been on the show circuit in very recent history. I wish I had known about Dr. Woodford while my horse was still showing. There is no doubt in my mind that with Dr. Woodford's adjustments my horse not only would have felt better, performed better but her mindset was truly an unexpected bonus. I would highly recommend trying chiropractic care and Dr. Woodford for your equine companion, show horse or not. It has been one of the greatest things that I have done for my girl and it shows!
